Commissioners.

School Report

Report of the Superintendent of Schools

To the School Board and Citizens of Bartlett:—

I have the honor and pleasure to submit for your consideration my annual report of the condition of your schools.

The regular work as provided in the State Program of school work has been carried on in the usual way with more or less emphasis on special subjects where needed. The following teachers are now at work in your schools:

Helen M. Conner, Glen,	32 pupils
Lucelle Schofield, Intervale,	18 pupils
Sarah Mower, Goodrich Falls,	10 pupils

The attendance has been satisfactory, and no outbreak of sickness has broken into the work of the schools.

The school house at Glen is too small to accommodate the number now attending this school, and I recommend that an addition be built on this building. The pupils are so crowded that no floor space is left for classes.

You will see by the financial report that the condition of the district is satisfactory. All of the bills of last year were paid and a balance of \$311.91 was left. The State is now contributing a good share of the expense, and no extra money need be appropriated, except what is requested by law, and enough to make the suggested improvement at Glen.

Respectfully,

L. M. FELCH,
Superintendent of Schools.

FINANCIAL REPORT

The School Board submits the following report
for the year ending June 30, 1924 :

Received

From the State, equalization fund,	\$1,790 32

	\$7,159 92

ELIZABETH A. GALE,
Treasurer.

I have this day examined the accounts of the Treasurer, Elizabeth A. Gale, and find all items pro-

perly entered and vouchers on file for each and every item paid out.

(Signed),

GEO. W. MORTON,
Auditor.

Report of the Superintendent of Schools

To the School Board and Citizens of Bartlett:

It is a pleasure to submit my annual report of the condition of your schools. Real progress has been made. There are now 171 pupils in your schools. In 1918 there were but 89; that is, the school population has nearly doubled. In 1918 you had three teachers. You now have six teachers, with a high school approved by the Department of Education as an "A" high school with a full four-year course of study. You have a nice house, well equipped, and the school is now fitting the pupils to enter higher institutions of learning. Since your schools are growing and prospering, your town must also be growing. This improvement in educational advantages has cost you some money, but it is money invested, not expended, and no town can boast of better returns for the amount invested.

The following is the list of teachers, schools, and number of pupils in each:

William Hounsell, Principal, High School,	38
Dorothy Shand, Assistant, High School,	
Mrs. Marion Junkins, Grades 7 and 8,	33
Ida M. Watson, Grades 5 and 6,	30

Ida McKeen, Grades 3 and 4,	34
Dorothy Warren, Grades 1 and 2,	36
Total,	171

Good work is being done in all your schools. Attention is being given to the teaching of thrift, and 22 pupils have already started savings bank accounts. This is valuable in training the young to discriminate in values, and think before spending money that may bring little or no value to them.

Daily drills in physical exercises are having a marked effect in producing strong bodies and vigorous minds.

REPAIRS AND IMPROVEMENTS

Your attention must be called to the heating apparatus in the elementary school. The furnaces are in bad shape. Because of difficulty in obtaining wood for fuel, coal has been used. The furnaces have been warped and burned through. Noxious gases and smoke comes up through the heat pipes. This is a source of danger to both pupils and to the building. Steps should be taken at once to replace this heating system. It would seem that the proper thing to do is to install steam, and I recommend that you seriously consider this step. The steam boiler in the High School building is giving excellent satisfaction, being both economical and efficient.

There will be at least fifty pupils in the High School next year. There are eighteen pupils in the eighth grade, and most of them will probably merit promotion into the High School. A room for science will need to be finished in the basement, and this can be done at small expense.

It must be a source of pride to all of the citizens of Bartlett when you consider the growth of the town and the schools. No longer need anyone hesitate to locate here because of lack of good school opportunity for the children. I heartily congratulate you all, on your schools.

Respectfully,

L. M. FELCH,
Superintendent.

Bartlett Special School District

The School Board submits the following financial report for the year ending June 30, 1924:

Receipts

State Aid:	
Equalization fund (from state),	\$2,880 59
Income from Local Taxation:
